# DuraPost VISTA® COMPOSITE PANELS

FOR A FIT AND FORGET FINISH

## DuraPost VISTA® Composite Panels for beauty and stability

**Enjoy composite fencing at its best,  
with a system designed to enhance any  
outdoor space.**

Lightweight and easy to fit, DuraPost VISTA® Composite Panels provide both strength and style. They don't rot or splinter, and have been UV stabilised to retain their integrity and finish season after season.

Available in six brand new colourways bespoke to this range, the tongue and groove design is not just attractive and resilient, but eco-friendly too. Crafted from recyclable and sustainable WPC, panels come with a 15 year guarantee and require little maintenance. Colour matched aluminium infills and screws complete the range, and when paired with tried and tested DuraPost® fence posts, create a great looking fence that lasts.

# The DuraPost VISTA® Composite Panel range brings strength, style and versatility to every garden.

Make outdoor design dreams a reality with this fit and forget fencing solution. Paired with DuraPost® fence posts, the result is stable, stylish and secure whatever the weather and requires low maintenance.

## LIGHTWEIGHT

Light yet strong, DuraPost VISTA® panels are easy to load, carry and install, making for a time efficient fit that stands the test of time.

## ECO-FRIENDLY

In order to keep environmental impact to a minimum, panels are made from a sustainable wood-plastic composite. They also don't require any annual treatment to protect and preserve their finish.

## LONG LASTING

DuraPost fence posts and composite boards, come with a 15+ year guarantee.\*

## FLEXIBLE

From boundary fencing to stunning outdoor spaces, DuraPost® has your garden project covered.

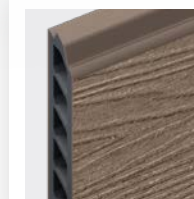

The attractive tongue and groove finish is available in six brand new colours.

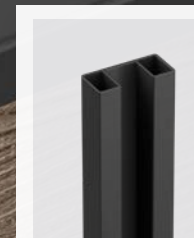

VISTA Composite Panels are designed to integrate perfectly with DuraPost® Aluminium Infills and Posts, to ensure optimum integrity and a high quality finish.

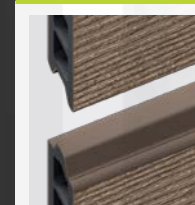

**Designed for use with DuraPost® Posts**

**Strong and lightweight construction**

**Aluminium infills and top rail ensure a secure fit**

**Modular design for easy installation**

The Panels

Marrying functionality with an attractive modern finish, VISTA Composite Panels are innovative in design and greatly enhances your outdoor spaces. They provide an easy to fit, long lasting yet lightweight modular fence panel solution.

(Bag 16) - recommended 1 bag per panel  
**B3S40028A | B3S40028B | B3S40028G | B3S400283**  
(Box 100)

Finish the Look

DuraPost® Fence Posts and Infills hold each fence bay securely, so that the system surpasses expectations for resilience and strength whatever the weather. Just 3 packs of boards, 1 pack of infills and 1 pack of screws create an elegant 6ft x 6ft fencing solution.

**DuraPost® Aluminium Infill Profile Set**

x2 @ 22 x 1825 x 49.5mm / x2 @ 22 x 1755 x 49.5mm

Like their Post counterparts, Infills are engineered to withstand harsh conditions.

- Securely links boards to post, with colour-matched self-drilling pan head screws
- Each pack includes 2 post infills and 2 top/bottom rails
- Colour matched to DuraPost® fence posts for a seamless finish
